

Science Contact Information

There are resources available online for both parents and students at: www.astromutt.com

If you have any questions about your child's progress or the science class, please contact me. Below are a variety of means that we may have a conversation.

- Email: ssexton@perucsd.org
- AIM: astromutt925
- School Phone: 643-6499

Also available online at the website address above is a contact link where you can post a message to me if email is unavailable to you.

Please complete the section below and have your child return it to me.

Thank you,

Mr. Shawn Sexton

Please keep this upper portion.

Parent/Guardian Contact Information

Please complete all available contact choices. To indicate a preferred contact method, check the box next to your preference. Email is the most reliable means of contact.

Student _____

Contact Person _____

Contact Phone (Weekdays, 7:30 am to 2:45 pm): _____

Contact Email: _____

At times, I would like to provide general updates and notices concerning our science class through email. This might include information such as upcoming test dates or important deadlines. If you do not wish to receive this email notification, please check the box below.

- I do not want to receive email notifications.
- I would like to receive email notifications of science class information at the address listed above.
 - Alternate Parent/Guardian Email address: _____
- I would like my child to receive email notifications at this email address: _____

This year, I will be experimenting with Texting Notifications. This will provide class information (ie: assignments, important dates, etc.) via text messages to mobile phones. If you or your student would like to participate, please list your cell provider and the cell numbers you wish to have notified. Be aware that some mobile plans charge for receiving text messages and I have no responsibility for this charge. This usage of cell technology does not affect the school's policy on cell phone usage during school hours.

Provider(ie: Verizon): _____

Cell numbers to be notified:
